Additives, Catalyst & Solvents

Additives

Wax in Styrene Solution (10%)

Wax additive to make gelcoat into a flocoat / topcoat for boat sheathing, ponds, roofing etc. Used at 1 - 2% to give a tack free surface. Wax additive may separate in low temperatures, loosen lid slightly and stand container in a hot water bath to reconstitute, re-tighten lid and shake well before use.

CODE	SIZE	£ (INC VAT)
QL2878	1 Litre	£12.00
QL2879	5 Litre	£45.00

Catalyst

Dibenzoyl Peroxide Catalyst

Benzol Catalyst with plasticizer.

Compatible with the Freefix 6470 Bonding Paste and HVD 50/55 Body Fillers.

CODE	SIZE	COLOUR	PACK QTY	£ (INC VAT)
QL2030	50 g	White	Single	£2.75
QL2032	50 g	White	20 Pack	£45.00
QL6274	40g	Red	Single	£2.25

Catalyst M - Medium Reactivity (MEKP)

Catalyst M is a methyl ethyl ketone peroxide in phlegmatizer for the curing of unsaturated polyester resins at ambient temperature in combination with cobalt accelerators.

CODE	SIZE	£ (INC VAT)
QL5376	130ml	£3.00
QL5379	1 Litre	£10.00
QL6091	5 Kg	£42.00
QL7346	30 Kg	£198.00

Solvents

Acetone

Used extensively within the GRP industry. Acetone is a powerful solvent used as the standard for cleaning and degreasing. It will dissolve and remove uncured epoxy, polyester, and vinyl ester resin from tools, brushes, and surfaces and will effectively remove grease and wax for surface preparation prior to bonding or repair. Widely used as a high strength nail varnish remover.

CODE	SIZE	£ (INC VAT)
QL1003	1 Litre	£6.00
QL1005	5 Litre	£20.00
QL1007	25 Litre	£66.00
QL1013	205 Litre	£450.00

Isopropyl Alcohol IPA

Commonly known as IPA or rubbing alcohol is a colourless flammable chemical compound with a strong odour. Used as a general cleaner that can be used to clean virtually any surface. Removes light grease, oils, dirt, food stains etc. Evaporates quickly and leaves surface squeaky clean.

CODE	SIZE	£ (INC VAT)
QL8490	1 Litre	£6.00
QL8491	5 Litre	£22.50
QL8492	25 Litre	£90.00

Adhesives & Glues

Duralac Green Anti Corrosive Jointing Compound 115ml

Duralac is a chromate containing jointing compound designed to inhibit electrolytic decomposition between dissimilar metals – often called galvanic corrosion. It is a single pack, air setting product. Used correctly, Duralac prevents anodic decomposition.

CODE	SIZE	£ (INC VAT)
QL9594	115ml	£12.00

Freefix 6470 Bonding Paste (Inc Catalyst)

DSM Freefix 6470 Bonding Paste is for use with composites and within other fields. A superior grade paste catalysed with BPO paste and incorporating a colour change mechanism on initiation. Very useful for filleting, gap filling and bonding GRP structures where firm consistency and controllable pot life are desirable. Bonds well to GRP, Wood, Foam, Steel, Brick, Concrete, and many other materials.

CODE	SIZE	£ (INC VAT)
QL1191	1 Kg	£20.00
QL1193	7 Kg	£78.00
QL1194	25 kg	£240.00

Zoom

Bison Silicone High Temperature Sealant

Suitable for joining and sealing joints, seams and cracks in places where high heat resistance is required. Adheres very well to glass, enamel, tiles, glazed ceramics and smooth metals. Particularly suited for joining and sealing oven and microwave windows, edges around (ceramic) hot plates, heating ducts, flues, heat screens for the fireplace (also suitable in its fluid form for automotive applications).

CODE	SIZE	£ (INC VAT)
QL9855	60ml	£5.00

Bison Liquid Rubber Transparent Repair Set

Ideal for glueing, filling and sealing of rubber, leather, textile, neoprene, various synthetics (such as Hypalon®), wood, metal or ceramics. Also suitable for repairing (sports) shoes, (soles and heels), boots, gloves, slippers, (hockey) sticks, inflatable objects (such as boats, air mattresses) made of rubber or soft PVC, rainwear, travel bags, wetsuits, diving gear, tents, (horse) saddles, decorative materials, headlights and to reinforce stitched seams. Also suitable for filling joints and gaps.

CODE	SIZE	£ (INC VAT)
QL9854	50ml	£11.00

Bison Epoxy 5 Minutes Adhesive - Transparent

Ideal for fast, strong and invisible repair of many materials, such as pottery, porcelain, glass, leather, wood, stone, metal, ceramics. Both with themselves and in combination.

CODE	SIZE	£ (INC VAT)
QL9853	24ml	£6.00

Bison Super Wood Glue

For the water resistant joining and laminating of practically all hard, soft and exotic woods. Suitable for well-fitting, non-load bearing wooden structures using, for example, finger joints, dovetail joints, mortise and tenon joints, dowels and springs. Suitable for indoor and outdoor applications, especially for glue joints that demand water resistance.

CODE	SIZE	£ (INC VAT)
QL9851	250g	£6.00
QL9852	750g	£11.00

Bison Polyurethane Adhesive 2K Expert

Universal, super strong 2-component polyurethane adhesive for the most difficult joints. Super strong, gap filling, weather and (sea) water resistant.

CODE	SIZE	£ (INC VAT)
QL9804	900 g	£25.00

Epo-Tak Advanced Spray Adhesive

Spray adhesive, solvent based, single component, modified epoxy resin. Product suitable for all methods of production including, RTM, RFI and also PRE-PREGS. It is particularly suitable for placing tissues of glass, carbon, hybrid, felts, release films etc. Perfect compatibility with epoxy resins.

CODE	SIZE	£ (INC VAT)
QL8450	500ml	£30.00

12mm Hotmelt Glue Sticks

Hot melt glue is an economical general purpose adhesive suitable for use on wood, ceramics and some plastics, such as rigid PVC and polystyrene. Hot melt glue is medium in viscosity and can be used for porous surfaces, such as foams and fabrics. Highly recommended for bonding ceramic tiles to display boards.

CODE	SIZE	£ (INC VAT)
QL5041	5kg	£48.00
QL5035	10pk	£4.00

Polycraft Cyanoacrylate 400 - Medium Viscosity Glue

Poly craft 400 is an ultra fast setting medium viscosity ethyl cyanoacrylate modified adhesive, Specifically formulated for bonding metals, paper, plastics, rubber, wood and other common substrates including porous surfaces.

CODE	SIZE	£ (INC VAT)
QL9810	50 g	£7.00

Polycraft Cyanoacrylate 600 - High Viscosity Glue

Polycraft 600 is a high viscosity ethyl cyanoacrylate modified adhesive, suitable for bonding a variety of materials such as cardboard, metals, paper, plastics, rubber, wood. Capable of bonding many surfaces including many porous surfaces at a fast speed. Polycraft 600 is also has excellent gap filling capabilities

CODE	SIZE	£ (INC VAT)
QL9807	50 g	£7.00

Polycraft Cyanoacrylate Activators

These solvent based activators are formulated to increase the cure speed of Polycraft Cyanoacrylate adhesives. Can be used to fillet cure Polycraft Cyanoacrylates and cure adhesive outside the joint and will set cure off in seconds. The CA700 is the general purpose activator while the CA800 is suited for use on uPVC to avoid discolouration and staining.

CODE	TYPE	APPLICATION	SIZE	£ (INC VAT)
QL9812	CA700	General	200ml	£7.00
QL9811	CA800	uPVC	200ml	£7.00

Ancillaries & Tools

»» Abrasives

Easy Grip Hand Sander 230mm x 105mm Sand Paper Holder

For sanding of flat surfaces that require large area to be covered. Two securing clamps enable attachment of sanding mesh or abrasive paper on to a foam rubber pad.

CODE	£ (INC VAT)
QL7848	£4.00

Wet & Dry Abrasive Paper

Quality Wet & Dry Abrasive Paper
Flexible Adhesive Paper
Can be used wet or dry
High Performance abrasive grain
Ideal for finishing of Wood, Fillers, Varnish & GRP

CODE	GRIT	QTY	£ (INC VAT)

Aluminium Oxide Sand Paper

Aluminium oxide abrasive
Full resin bond
Flexible backing paper
Long-life, high-performance abrasive
Open coat reduces clogging
For sanding wood, paint, varnish, plastic, plaster & metals
Ideal for hand sanding
115mm x 10m roll

CODE	GRIT	SIZE	£ (INC VAT)
QL6632	40	10m	£6.00

QL6637	240	10m	£6.00

Aluminium Oxide Sand Paper Sheets 10pc Assorted

Aluminium oxide abrasive
Can be cut to required size
For sanding wood, paint, varnish, plastic, plaster & metals
Ideal for hand sanding

Pack Includes
4x 60 Grit
2x 80 Grit
2x 120 Grit
2x 240 Grit

CODE	GRIT	£ (INC VAT)
QL6630	Assorted	£2.50

Multigrade Wire Wool (Course / Medium / Fine Grade)

Includes three grades: coarse, medium and fine (4 of each grade). Coarse grade removes rust from metal surfaces. Medium grade restores and polishes aluminium, brass, copper and other metals and is ideal for cleaning copper pipe/fittings before soldering or removing lacquer/varnish. Fine grade burnishes wood/metal finishing e.g. brass and is also ideal for flattening painted or varnished surfaces prior to applying wax polish.

CODE	£ (INC VAT)
QL5095	£2.50

»» Brushes

Artists Paint Brush Hobby Set 12 Pc

Pure bristle with natural wooden handles. For finishing work, painting and priming. Tip sizes from 1mm - 12mm

CODE	SIZE	TYPE	£ (INC VAT)
QL7891	1mm - 12mm	Mixed	£3.00
QL7890	1mm - 12mm	Flat	£3.00
QL7892	1mm - 12mm	Pointed	£3.00
QL7889	1mm - 12mm	Round	£3.00

1" (25mm) Odd Spot Brush

Odd Spot Brush - Angled head for painting in those difficult areas.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL5958	25mm	Single	£1.50

2" (50mm) Odd Spot Radiator Brush

Odd Spot Brush - Angled head for painting in those difficult areas.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL5943	50mm	Single	£5.00

Kana Easy-Flo High Performance Synthetic Paint Brush

Kana Easy-Flo High Performance Synthetic Paint Brush. Low bristle loss, high performance with all paints and varnishes. Easier to clean synthetic bristles, soft grip handle for greater comfort and control, stainless steel ferrule.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL5950	25mm	Single	£2.40
QL5951	50mm	Single	£3.60
QL5952	75mm	Single	£4.80

Kana Premier High Performance Synthetic Paint Brush

Kana Easy-Flo High Performance Synthetic Paint Brush. DuPont™ synthetic tapered bristle gives 7x longer life and are easier to clean. Brilliant paint loading, gradual paint release and fine finish. Superior shape and stiffness retention with no bristle loss. Traditional wooden beaver-tail handle for comfort. Compatible with a vapour box.

CODE	SIZE	PACK QTY
QL5955	50mm	Single

Non-Synthetic Resin Laminating Economy Brushes

White bristled, plastic handled 'resin' brushes are ideally suited for use in G.R.P. applications where bristle loss is not critical.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL7123	12mm	Single	£0.60
QL7125	12mm	12 Pack	£6.00

Clamps

Quick Release Clamps

Single-handed operation allows variable adjustment. Quick-release button. Can also be used as a spreader. Tough nylon jaws are strong and lightweight.

CODE	SIZE	QTY	£ (INC VAT)
QL7852	100mm	1	£4.80
QL7853	150mm	1	£8.00
QL7466	150mm	2	£6.00
QL7465	300mm	1	£9.00

Spring Clamps

Serrated jaws with soft-grip rotating jaw pads, ideal for gripping two flat surfaces together. Durable, plastic, contoured jaw-end grips. Ideal for model making or general craft.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL5457	65mm	5	£2.50
QL5458	100mm	5	£3.50
QL5461	200mm	5	£9.50

Cloths

Universal 2 Ply Towel Roll

Universal 2 Ply Roll Towel. Centrefeed rolls are ideal for use in busy environments where a large amount of tissue is required to absorb spillages quickly. The centrefeed roll is easily loaded in to the dispenser by removing the core from the centre of the roll and placing it in the dispenser so the paper dispenses from the middle, the paper is easily torn with a sharp tug against the side of the dispenser.

CODE	COLOUR	QTY	£ (INC VAT)

QL3983	Blue	6	£21.60
QL7419	White	1	£4.20
QL7417	White	6	£21.60

Mutton Cloth

Numerous uses, washing, cleaning, polishing and general workshop and household use.

Widely used in GRP industry for cleaning of moulds

CODE	SIZE	£ (INC VAT)
QL5985	400g	£3.50
QL5986	800g	£6.00

Nexus Soft Non-Woven Polishing Cloth

Nexus Soft Non-Woven Polishing Cloth

Solvent resistant

Low linting

Very high yield

CODE	QTY	£ (INC VAT)
QL1400	10	£2.00
QL1401	Box (Approx 500)	£50.00

Consolidating Rollers

Bubble Buster Rollers - Aluminium

High grade aluminium has the advantage of easier cleaning and therefore prolonged lifespan of tool.

CODE	SIZE	£ (INC VAT)
QL7191	50mm x 21mm	£4.80
QL7196	70mm x 21mm	£4.80
QL7195	140mm x 21mm	£6.00
QL7192	140mm x 40mm	£6.00

Bristle Rollers

Probably the most effective of all consolidating rollers. Offers excellent air removal giving a very smooth finish.

CODE	SIZE	PRODUCT	£ (INC VAT)
QL7197	50mm	Refill Only	£6.50
QL7203	50mm	Frame Only	£2.50
QL7200	50mm	Set	£9.00
QL7198	100mm	Refill Only	£7.50
QL7204	100mm	Frame Only	£2.50
QL7201	100mm	Set	£10.00
QL7199	150mm	Refill Only	£8.50
QL7205	150mm	Frame Only	£2.50
QL7202	150mm	Set	£11.00

Radius / Corner / Disc Roller

GRP Radius / Corner Roller, designed to remove entrapped air from sharp corners.

CODE	£ (INC VAT)
QL1144	£6.50

Fin Rollers - Aluminium High Grade

High grade aluminium fins for excellent air relief in most grp applications.

CODE	SIZE	£ (INC VAT)
QL7190	50mm x 12mm	£6.00
QL7184	70mm x 21mm	£6.00
QL7185	140mm x 22mm	£7.20

Fin Rollers - Nylon Plastic

Lightweight PTFE material that is easier to clean than metal rollers as GRP resin bonds less strongly to the plastic.

CODE	SIZE	£ (INC VAT)
QL6622	50mm x 15mm	£4.80
QL6623	50mm x 20mm	£4.80
QL6624	70mm x 15mm	£4.80
QL6625	70mm x 20mm	£4.80
QL6626	100mm x 15mm	£4.80
QL6627	100mm x 20mm	£4.80
QL6628	140mm x 20mm	£4.80

Paddle Rollers - Aluminium

Perfect tool for a quick wet out and air remove on a large surface. This popular tool is also the least expensive and therefore one of the best value rollers. Its aluminium construction makes it lightweight and easy to use.

CODE	SIZE	PACK QTY	£ (INC VAT)
QL7160	50mm x 15mm	Single	£4.80
QL7161	50mm x 15mm	12 Pack	£36.00

Aluminium Foil Tape

Strong, flexible aluminium foil tape on silicon paper liner for use on most surfaces. Aggressive acrylic-based adhesive, flame retardant and excellent temperature performance. Use for jointing insulation panels, sealing off air conditioning and cool/warm air flow ducting, sealing joints in ducting providing a flame-retardant vapour proof barrier. UV-resistant and waterproof. Temperature range from -20C to +100C.

Wax Fillets & Tools

Yellow Wax Fillet

Void & Joint Filler for sheet wax. Wax Fillets are ideal for forming exact radii in pattern making and moulding purposes. True to radius, the wax fillets are self-adhering with feathered edges & easily applied with the fillet tools which are also available to purchase. Contains beeswax, stays soft and workable

CODE	SIZE	£ (INC VAT)
QL1495	650g	£12.00

Wax Fillet / Radius Metal 4pk

Wax Filleting Tools are used apply wax fillets when forming radii on patterns & moulds. Can also be used for moulding Plasticine, Clay Carving and a variety of different uses.

CODE	£ (INC VAT)
QL3710	£15.00

Wax Fillet / Radius Plastic 3pk

Wax Filleting Tools are used apply wax fillets when forming radii on patterns & moulds. Can also be used for moulding Plasticine, Clay Carving and a variety of different uses.

CODE	£ (INC VAT)
QL7155	£15.00

Wedges

Mould Wedge

Wedges are used to help separate GRP items from the moulds. Wedges are inserted around the mould between mould and part, as pressure is applied to wedges the part should release from mould.

Fibreglass Boat Repairs Illustrated

If you don't have the experience of working with fibreglass, any repairs to your boat must be done by high-cost professionals or left undone. This entry-level guide uses full-colour, step-by-step photo sequences and line drawings to present you with the basics in an easily digested form.

CODE	AUTHOR	£ (INC VAT)
QL5431	Roger Marshall	£20.00

How to Fabricate Automotive Fibreglass & Carbon Fibre Parts

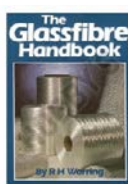

How to Fabricate Automotive Fibreglass and Carbon Fibre Parts comes from authors who explain the basics of fabricating popular exterior and interior parts and walks car handymen through the process of using fibreglass, carbon fibre, and composite materials to construct a variety of automotive parts for all kinds of cars. From building basic moulds to laying up fibreglass parts and finishing parts, this offers a range of fabrication and repair projects and covers all stages.

➤ (continued)

CODE	LENGTH	£ (INC VAT)
QL5589	100 Metre	£75.00

450gm Fibreglass Chopped Strand Mat

This is a medium weight general purpose emulsion bound chopped strand, suitable for most GRP applications this CSM allows easy saturation of resin while still achieving a high strength laminate.

The 450gsm CSM will require approx 1.1Kg of resin per square metre to adequately wet out.

CODE	LENGTH	£ (INC VAT)
QL2440	1 Metre	£2.20
QL2443	10 Metre	£16.00
QL2445	50 Metre	£60.00
QL5582	75 Metre	£75.00

600gm Fibreglass Chopped Strand Mat

This is a heavy weight general purpose emulsion bound chopped strand, ideally suited for thicker laminates or rapid build up. This CSM would be the preferred choice when one layer is being applied in applications such as roofing and pond lining.

The 600gsm CSM will require approx 1.5Kg of resin per square metre to adequately wet out.

CODE	LENGTH	£ (INC VAT)
QL2450	1 Metre	£2.30
QL2452	10 Metre	£17.00
QL5583	55 Metre	£75.00

900gm Fibreglass Chopped Strand Mat

This is a very heavy weight general purpose emulsion bound chopped strand, design for applications requiring rapid laminate thickness or increased strength. Due to the weight of this CSM it is better suited to flat mouldings.

The 900gsm CSM will require approx 2.1Kg of resin per square metre to adequately wet out.

»» Combination Mat

Combination Duo Mat 600gm Woving Roving / 300gm Chopped Strand Mat

This combination fibreglass fabric consists of a woving cloth base layer to which a controlled quantity of chopped fibreglass strand is deposited and chemically bonded. This process minimises the quantity of binder insuring fast wet out and ease of handling not available with other woven/mat fibreglass products. Fabmat is thermoformable, an added benefit allowing the end user to preform the reinforcement prior to moulding.

»» Tissue

Surface Tissue

The glass fibre veil is bound by a modified Styrene resin which is rapidly soluble in Styrene resin systems. Designed to be used as a surfacing tissue for GRP laminates. Surfacing veils strengthen the resin-rich gel coat surface of glass fibre reinforced plastic components, creating a strong bond with the underlying laminate and enhancing surface appearance by masking the reinforcing fibre pattern.

Fillers

Filler Pastes

Monofil Lightweight Filler

This body filler and putty adheres to steel plates, zinc metal sheets, aluminium and GRP. Due to its creamy paste-like viscosity the Monofil Lightweight Filler enables a non-porous application and results in a smooth and sealed surface. Furthermore, it dries quickly and is easy to sand.

CODE	SIZE	COLOUR	£ (INC VAT)

Henkel Teroson UP620 Gelcoat Filler

Gelcoat filler is a white, waterproof gelcoat filler for surface repairs. It is paintable, easy to mix, apply, shape and sand. Suited to marine paint, can be painted with any marine paint. Use with glass-fibre Mat for structural repairs to GRP and can be used on glass-fibre or gelcoat.

CODE	SIZE	COLOUR	£ (INC VAT)
QL6621	241 g	White	£15.00

»» Filler Powders

Micro Balloons Filler Powder

Micro balloons are hollow phenolic resin spheres which have a distinctive reddish/brown colouration. This makes them particularly useful for cosmetic fillet joints and fillers in wood construction, as well as structural adhesives for less demanding applications on softer timbers such as cedar. Although not as waterproof as glass bubbles, micro balloons are often preferred for their excellent sanding characteristics.

CODE	SIZE	£ (INC VAT)
QL8486	50 g	£7.50
QL1750	300 g	£27.00

Glass Bubbles Filler Powder

Glass Bubbles are hollow glass spheres with a more variable particle size than micro balloons. Being composed chemically of glass, they are physically harder than micro balloons and filled resin mixes are noticeably more difficult to sand. However, glass bubbles produce a more waterproof filler mix and are often used on below-water-line applications on boats.

CODE	SIZE	£ (INC VAT)
QL8485	50 g	£6.50
QL2780	300 g	£15.00

Colloidal Silica Filler

Colloidal Silica is an agent which is used to control the thixotropy or 'sag' characteristics of a resin system. By adding colloidal silica powder in varying amounts to a resin mix containing the other filler types mentioned, the handling and flow characteristics can be controlled. Relatively small quantities added to a resin mix containing glass bubbles or microballoons will give non-sag properties and impart easier handling.

CODE	SIZE	£ (INC VAT)
QL8483	25 g	£4.50
QL8484	500 g	£24.00
QL1748	250 g	£15.00

Microfibrs Filler Powder

Microfibrs are very fine wood-cellulose fibres commonly used to create structural adhesives for bonding both wood and grp. Because any low viscosity resin system is readily absorbed into a porous surface such as wood, an unfilled adhesive may tend to give a 'dry joint'. With their absorbent properties, microfibrs can retain a significant quantity of adhesive within a joint and limit resin absorption into the surrounding surface, thus ensuring an adequate resin supply for adhesion.

>>> Teak Treatment

Hempel Teak Cleaner

A powder for cleaning all teak areas. Especially good for large areas such as decks, and for wood that's turned dark grey. Removes dirt and marks giving a clean surface ready for you to apply Hempel Teak Oil.

CODE	SIZE	£ (INC VAT)
QL3100	750ml	£17.50

Hempel Teak Oil

Unpigmented teak oil with good penetration to protect wood and make it easier to clean. Helps wood resist both water and dirt, and underlines its original structure. Use to overcoat Teak Colour Restorer on areas of high usage. Not suitable for use on painted or varnished surfaces. Apply one saturation coat onto cleaned new wood, previously oiled or preserved wood. Let the Teak Oil soak into the wood, then remove surplus oil with a clean cloth.

CODE	SIZE	£ (INC VAT)
QL3020	750ml	£17.50

>>> Thinners

Hempel Thinners

It is important that only the recommended Thinners are used for each application, failure to do so will result in a ruined job. Substituting other proprietary products will also result in failure. Several products have a choice of Thinners depending on the application method to be used.

Latex

Liquid Latex - Brush On / Dipping Latex

Latex Dipping Rubber for self-releasing flexible moulds - for detailed castings in polyester resin, plaster and other cold cure materials.

CODE	SIZE	£ (INC VAT)
QL2282	1 Litre	£8.00
QL2283	5 Litre	£30.00
QL2284	25 Litre	£125.00

Thickener Additive For Liquid Latex

Latex thickener additive is used to build up heavier layers than using latex without the thickener additive, this method will allow you to reduce the amount of layers but yet still build the depth to the required level, Easy to use - just add thickener to the liquid latex rubber then leave to dry. Apply the next coat as soon as the first coat is dry.

CODE	SIZE	£ (INC VAT)
QL2288	250ml	£3.00
QL2290	1 Litre	£8.00
QL2291	5 Litre	£30.00

Mould Preparation

Llewellyn Ryland Polyester Lacquer PLQ02 Dense Black

PLQ02 polyester lacquer has been developed as a finishing coat for the manufacture of plugs and production tools. PLQ02 can be applied to multiple surfaces including Marine ply, MDF board, polyester topcoat or ideally, Llewellyn Ryland PLQ04 or PLQ05 polyester primers.

CODE	SIZE	£ (INC VAT)
QL5002	5 Litre	£126.00

Llewellyn Ryland Polyester Primer PLQ03 Grey

PLQ03 Polyester Primer is a grey, sprayable primer system for plugs and patterns. Due to the filler content and low viscosity, a sediment may occur on standing. PLQ03 Polyester Primer should be re-dispersed using a mechanical mixer for best results.

CODE	SIZE	£ (INC VAT)
QL5005	5 Litre	£108.00

Llewellyn Ryland Polyester High Build Primer PLQ05 Cream

PLQ05 Polyester high build base primer is a cream-coloured sprayable base primer for plugs and patterns. Its high build properties are ideal for priming rough or uneven surfaces, providing a solid base for PLQ02 high gloss lacquer.

CODE	SIZE	£ (INC VAT)
QL5008	5 Litre	£84.00

Polyester Resins, Gels & Top-coats

»» Polyester Casting Resin

Crystics 9293 Polyester Casting Resin

The Crystics 9293 Polyester resin is a great choice for metal castings, also very popular with modellers that want a high detailed casts when clarity isn't a main factor. This resin is very easily pigmented from a wide range of Polyester based Pigments.

» Polyester Flocoat / Topcoat

Brushing Topcoat

Designed as a clear or pigmentable general purpose topcoat for use in GRP constructions to hide fibre from lamination and generally improve appearance. Suitable for application by brush or roller to give a tack free film. Can be used clear or pigmented, compatible with Llewellyn Ryland Polyester Colour Pastes.

Polytek Poly 74 Series Flexible Polyurethane Rubber for Concrete

These polyurethane liquid mould rubbers are soft to mid-range hardness, high-performance, room temperature curing systems offering superior flexibility and toughness allowing durable moulds to be made from relatively simple to the most highly detailed, undercut and complex models. The 74 Series liquid mould rubbers are supplied as pourable liquids so poured block and blanket moulds can be made with ease.

Polytek Poly 75-60 Firm Polyurethane Rubber for Concrete Casting

Poly 75-Series Liquid Rubbers consist of two parts (A & B), which, after mixing, cure at room temperature to flexible rubber. Moulds made with Poly 75-Series products are excellent for casting concrete, plaster and wax. In addition, when coated with a proper release agent, Poly 75-Series moulds can be used to cast various resins. Poly 75-Series Liquid Rubbers are formulated for good economy with high performance and durability.

QL3715	25 Litre	£125.00

Polycraft Petrogel Release / Sealer

Petrogel is a solvent-based wax release agent, which has been specially formulated to provide release from a wide range of moulds and moulding materials.

Petrogel provides a high quality and reliable release from moulds made from metal, epoxy, polyurethane, GRP (polyester) vacuum-formed plastics, silicones, wood, plaster and MDF. On porous surfaces it acts as a surface sealer; it works well due to its unusually high solids concentration.

CODE	SIZE	£ (INC VAT)
QL2481	1 Litre	£15.00
QL2480	500 ml	£8.00

»» Paste Wax Release

Bonda Release APW Soft Wax

This is a universal release wax that will offer excellent release from a wide range of rigid mould compounds including plaster, Jesmonite, GRP, metal, wood, and glass. It can also be used on production equipment such as scales and casting tables to assist in cleaning.

CODE	SIZE	£ (INC VAT)
QL1767	500 g	£20.00

Finish Kare Hi Low Wax

A true, hard gloss, paste wax formulated with synthetic waxes and high heat resins for the effective release of most plastic parts through numerous cycles. Buffs to an ultra high gloss for easy separations. An excellent release between fibreglass/fibreglass separations as well as fibreglass/foam separations

CODE	SIZE	£ (INC VAT)
QL1247	426 g	£20.00

Finish Kare Hi - Low Liquid Release Wax

A true, hard gloss, paste wax formulated with synthetic waxes and high heat resins for the effective release of most plastic parts through numerous cycles. Buffs to an ultra high gloss for easy separations. An excellent release between fibreglass/fibreglass separations as well as fibreglass/foam separations

CODE	SIZE	£ (INC VAT)
QL3694	250 ml	£9.00
QL3691	3.8 Litre	£96.00

Honey Wax Release Agent

Honey Wax is a unique, high gloss paste wax for use by the reinforced fibreglass moulder as a mould release agent. It is compounded with the purest grade carnauba wax, plus special binders and spreading agents. Honey Wax creates a durable wax surface that remains intact for multiple pulls. Honey Wax reduces man hours due to its exceptional ease of application and buffing.

CODE	SIZE	£ (INC VAT)
QL2603	397 g	£22.50

Miracle Gloss #8 Maximum Mould Release Wax v2.0

The industries first and most widely used mould release wax. Recognised worldwide as the industry standard for paste mould release waxes. Wax of choice when maximum release power is required. Withstands exothermic temperatures up to 121°C.

CODE	SIZE	£ (INC VAT)
QL6041	311 g	£20.00

TR 104 High Temp Release Wax

A firm Mould Release Paste Wax, based on the highest quality Refined Carnauba Wax blended with other synthetic high temperature ingredients and petroleum distillates.

CODE	SIZE	£ (INC VAT)
QL1489	396 g	£22.50

Magnawax White - Silicone Free Release Agent

Its soft paste consistency makes it ideal for use as a Flange and Shower Tray Top Hat Wax. It can be applied with either a soft brush or a cloth. When used as a flange wax it would not normally be polished, once applied, and can give multiple releases. There is no further waiting time required for it to cure and it can be put in to production straight away.

CODE	SIZE	£ (INC VAT)
QL1276	15 kg	£100.00

Sealers

Bonda Seal Clear

Bonda Seal Clear has the following uses. For sealing all surfaces with a clear, non-yellowing UV light stable non-porous-seal. For transparent wood finishes - all types of timber flooring, wall and ceiling coverings, boats and furniture, impregnation of masonry, concrete, asbestos, cement and stone floors, coating of metal surfaces, to prevent chemical and airborne contamination, to retain the appearance of finished surfaces.

CODE	SIZE	£ (INC VAT)
QL1120	1 Litre	£26.40

G4 Damp Seal

A moisture cured damp sealant, hard wearing concrete floor seal. When sheathing boat hulls, G4 is used as a bonding primer between the polyester resin and the wood and/or metal. The hull should be dry and down to the bare wood or metal, apply the G4, and leave until finger tacky (but no longer than 4 hours), then the GRP laminate can be applied.

CODE	SIZE	£ (INC VAT)
QL3115	1 Kg	£20.00
QL3116	2.5 Kg	£40.00
QL3117	5 Kg	£62.50

G4 Black Pond Sealer

Effective sealer for concrete ponds, statues, flagstones and waterfalls. G4 is a moisture cured, one component polyurethane product which forms a non-porous, tough, durable but flexible seal on concrete. Prevents lime leaching into your pond from concrete and stops water leaking out. Paint straight onto the concrete, no primer needed.

CODE	SIZE	£ (INC VAT)
QL3112	5 Kg	£96.00

Silicone

Condensation Cure

Polycraft GP3481-F General Purpose RTV Condensation Cure Mould Making Silicone Rubber

High strength silicone mould making rubber. Our silicone has been formulated for easy mixing by hand, with colour coded components (red or green) giving a visual aid to ensure mixing is adequate. The two components mix easily and because of the low viscosity most grades can be used without processing in a vacuum chamber. This silicone is suited for the detailed reproduction of figures, art objects and similar items.

Polycraft Silicone Catalyst For GP3481 General Purpose Silicone

This silicone catalyst is designed for use with our general purpose rtv silicone GP-3481 base. Red silicone catalyst is by far the most popular catalyst to use with the GP-3481-F silicone, it gives great air release with longer working and demould times. Clear catalyst is used when pigments are required. Green silicone catalyst is used when time is off importance.

QL6203	10 Kg	£110.00

Polycraft Dow Corning Silicone Thixo

Thixo tropic Agent is an additive for RTV Silicone to thicken the silicone. The liquid silicone is thickened to make it more suitable to creating certain types of moulds. With correct amounts of this agent the silicone may be smoothed on to the original. For best results we would always recommend applying a first coat of un-thickened Silicone to create a bubble free mould.
